Below is a sample row from the dataset.

	mpg	cyl	displacement	horsepower	drat	weight	qsec	vs	am	gear	carb
Mazda RX4	21.00	6.00	160.00	110.00	3.90	2.62	16.46	0.00	1.00	4.00	4.00

The pairs chart below show that variables appear to be highly correlated with mpg. In particular, see the first column which pairs mpgs with the other variables in the dataset.
